RECEIVED  
AUG 29 1984  
WASTE MANAGEMENT  
BRANCH

Dear Mr. Ohm:

I am writing to you as both a concerned citizen and an active member of the Central Ohio Group of the Sierra Club.

I read with interest a recent newspaper report on your agency's public hearing regarding Columbus Coated Fabric Co.'s petition for a hazardous waste storage permit. I wish to register my support for Mr. Michael J. Pompili's findings and urge your organization to withhold issuing the permit until Columbus Coated has thoroughly complied with the U.S. EPA rules. Mr. Pompili was very clear and thorough in pointing out areas of non-compliance by Columbus Coated and I think it is very important that you investigate each item and make sure that the sub standard activity is corrected. Furthermore, since Columbus Coated is located amidst residential property and so close to schools, I think the Columbus Health Department recommendations deserve careful consideration. If it is possible for you to withhold the permit until Columbus Coated has complied with the Health Department recommendations in addition to the EPA guidelines, I urge you to do so. Careful scrutiny at this stage can protect against unspeakable disaster down the road.

Thank you for your attention to this matter.

Sincerely,

  
Ronald P. Zelizer

Dr. Mr. Ohm,

It stands to reason that citizens should not even have to ask for tight federal controls on a hazardous waste storage facility at 1280 N. Front Ave. Columbus, Ohio.

Anytime anything is stored near a population center that might require evacuation of the people in that area it should not be allowed in such an area.

We ask your help in getting needed regulations passed, to say the least - Better, removal of such hazardous waste to an isolated place. Borden can stand the cost. If not they can raise milk, and what not. We can't afford the risk.

Thank you,

Janice L. Horby

4 August 1984.

Ms. O...m,

Please see that any permit if issued, to waste storage facility at 1280 N. Grant Ave., Columbus, Ohio includes tight federal controls, to protect Columbus residents.

This should include quarterly inspections of the site, written and required training to be given employees handling hazardous wastes, including emergency procedures.

Stringent regulation is needed. Without this, the permit should not be given.

Thank you.

Mr. Michael Ohm  
U.S. EPA Region V  
Waste Management Branch  
230 S. Dearborn St.  
Chicago IL 60604

Dear Mr. Ohm:

SUBJECT: COLUMBUS COATED FABRICS HAZARDOUS WASTE STORAGE FACILITY AT  
1280 N GRANT

Before Columbus Coated Fabrics should be granted any Resource Conservation and Recovery Act permit, they should be required to correct plant deficiencies mentioned in Michael Pompili's statement at the July 26 hearing. The permit application should describe employee emergency training plans and also plans for briefing local public safety and medical professionals. Nearby property owners and residents should receive notification that accidents at the facility could cause them to be evacuated.

Few people are aware of the risks posed by hazardous wastes in our environment. However, I am convinced that if people had known about it, there would have been more attending the July 26 hearing. How was the hearing publicized? I'm a well-informed Columbus citizen, yet I was not aware of the hearing until after the fact. Was it held in the evening, when working people could attend? If not, it was not much of a public hearing.

I would appreciate receiving more information on the facility and on the plans for requiring it to follow more stringent regulations.

Please add my name and address to your public information mailing list so that I will receive notices of future hearings involving Central Ohio issues. Thank you for your consideration of these comments and for any information you can send regarding the issues I've mentioned.

Sincerely,

*Barbara Covert*

Kirk Bishop  
Public Service Announcements  
WVKO-AM  
4401 Carriage Hill Lane  
Columbus, Ohio 43220

Dear Mr. Bishop:

Per our telephone conversation on June 28, 1984, I am enclosing a Public Service Announcement regarding a hazardous waste permit that the United States Environmental Protection Agency (U.S. EPA), Region V, is considering issuing to Columbus Coated Fabrics, Columbus, Ohio. I appreciate your offer to provide information about the Columbus Coated Fabrics draft permit to citizens residing in the area.

Although pertinent facts about the public hearing were provided in the advertisements that the U.S. EPA purchased for broadcast on WBNS-AM and WRFD-AM for June 20, 1984, additional details about the draft permit are included in the enclosed announcement.

Also enclosed are copies of the Statement of Basis, the draft permit, and, the public notice that were published in the Columbus Dispatch on June 20, 1984.

Section 7004(b)(2) of the Resource Conservation and Recovery Act (RCRA) requires U.S. EPA to broadcast its intention to issue a hazardous waste permit over a local radio station. In order to demonstrate our compliance with this requirement, I would appreciate your completing the enclosed card and returning it to me.

Thank you for your assistance, and please contact me at (312) 886-1657, if you have any questions.

Sincerely,

Michael Ohm  
Environmental Protection Assistant

SUBJECT				
Placement of Columbus Coated Fabrics (CCF) material in Columbus Public Library				
SUMMARY				

chuck slausters received call from party in Columbus who claimed CCF material was not on file at library as public notice said it should be. I called the library (Dave Urbanski) and he confirmed the material for CCF was not there, it never arrived. When the library previously said the material had arrived, they had been <sup>referring</sup> ~~referred~~ to a second permit, also, just placed at the library, (Col. Steel Drum Co.) As a result I sent copies of the material out today, 6/29, & we will extend the comment period if requested.

#### INSTRUCTIONS TO PUBLISHERS

Extreme care should be exercised to insure that the specifications for advertising to be set other than solid be definite, clear, and specific since no allowance will be made for paragraphing or for display or leaded or prominent headings, unless specifically ordered, or for additional space required by the use of type other than that specified. Specifications for advertising other than solid and the advertisement copy submitted to the publisher will be attached to the voucher. The following is a sample of solid line advertisement set up in accordance with the usual Government requirements.

DEPARTMENT OF HIGHWAYS & TRAFFIC,  
D.C. Bids are requested for first spring 1966 cement concrete repair contract, including incidental work, Washington, D.C., Invitation No. C-5576-H, consisting of 11,000 sq. yds. PCC Class BB sidewalk repair and 2,000 cu. yds. PCC Class A pavement, alley, & driveway repair, both cut repairs only. Bidding material available from the Procurement Officer, D.C. Sealed bids to be opened in the Procurement Office at 8:00 p.m., November 15, 1965.

Your bill for this advertising order should be submitted on the "Public Voucher for Advertising" form, which is printed on the reverse of this form, immediately after the last publication of the advertisement. If copies of the printed advertisement are not available, complete the affidavit provided on the voucher. Submit the voucher and a copy of the printed advertisement to ▶.....

Closure Plan

Columbus Coated Fabrics  
Attn: Mr. Grover B. Thomas  
PO Box 208  
Columbus, Ohio 43216

Dear Mr. Thomas:

A public notice acknowledging the Ohio EPA's receipt of a closure plan for Columbus Coated Fabrics located at 1280 N. Grant Ave., Columbus, Ohio 43201 will appear the week of July 15, 1991 in the Columbus Dispatch, Columbus, Ohio. The Director of the Ohio EPA will act upon the closure plan request following the close of the public comment period, August 21, 1991.

Copies of the plan will be available for public review at the Columbus Metropolitan Library, 96 S. Grant Ave., Columbus, Ohio 43215 and the Ohio EPA, Central District Office, 2305 Westbrooke Dr., Bldg. C, Columbus, Ohio 43228.

Please contact Randy Sheldon at (614) 644-2977, if you have any questions concerning this matter.

Very truly yours,

Thomas E. Crepeau, Manager  
Data Management Section  
Division of Solid and Hazardous Waste Management

PUBLIC NOTICE

Franklin County

RECEIPT OF HAZARDOUS WASTE CLOSURE PLAN

For: Columbus Coated Fabrics, 1280 N. Grant Ave., Columbus, Ohio 43201, EPA ID No.: OHD004294351, Ohio ID No.: 01-25-0145. Pursuant to OAC Rule 3745-66-10 thru 17 and 40 CFR, Subpart G, 265.110 thru 117, the Ohio Environmental Protection Agency (Ohio EPA) is hereby giving notice of the receipt of a Hazardous Waste Facility Closure Plan for the Hazardous Waste Drum Storage Area for the above referenced facility. Ohio EPA is also giving notice that this facility is subject to a determination concerning corrective action, a requirement under the Hazardous and Solid Waste Amendments of 1984, which concerns any possible uncorrected releases of hazardous waste or hazardous constituents to the environment from any current or previous solid waste management units at the above facility. A corrective action determination is required from hazardous waste facilities intending to close.

Copies of the facility's Closure Plan will be available for public review at the Columbus Metropolitan Library, 96 S. Grant Ave., Columbus, Ohio 43215 and the Ohio EPA, Central District Office, 2305 Westbrooke Dr., Bldg. C, Columbus, Ohio 43228. Comments concerning this plan or factual information concerning any releases of hazardous waste or hazardous waste constituents by the above facility requiring corrective action should be submitted within 30 days of this notice to: Ohio Environmental Protection Agency, Div. of Solid & Hazardous Waste Mgmt., Data Management Section, Attn: Thomas E. Crepeau, Box 1049, Columbus, Ohio 43266-0149.

1 MS. KATSURA: Will the hearing  
2 please come to order.

3 Good evening ladies and gentlemen.  
4 My name is April Katsura, and I am the  
5 Hearing Officer representing the Chicago  
6 Office of the United States Environmental  
7 Protection Agency.

8 The purpose of tonight's hearing  
9 is to receive your comments into the  
10 record of U.S. EPA's intent to issue a  
11 Resource Conservation and Recovery Act  
12 Permit to Columbus Coated Fabric, a  
13 division of Borden Incorporated, to  
14 operate a hazardous waste storage facility  
15 at 1280 North Grant Street, Columbus,  
16 Ohio.

17 With me on the panel is Charles  
18 Slaustas, the primary author of U.S.  
19 EPA's draft permit. Our hearing assistant  
20 at the registration table is Arthur  
21 Kawatachi.

22 Under the Resource Conservation  
23 and Recovery Act, commonly referred to  
24 as RCRA, U.S. EPA has promulgated regula-  
25 tions to protect human health and the

1 environment from the improper management  
2 of hazardous waste.

3 Section 3005 of RCRA, along with  
4 regulations found in Title 40 of the  
5 Code of Federal Regulations, establish  
6 a permitting system governing the treat-  
7 ment, storage, and disposal of hazardous  
8 waste. These regulations enable U.S.  
9 EPA to issue or deny permits for  
10 hazardous waste facilities.

11 If a state is authorized, under  
12 Section 3006 of RCRA, it may issue or  
13 deny permits in lieu of U.S. EPA. Since  
14 the State of Ohio has not yet received  
15 the required authorization, U.S. EPA is  
16 responsible for making a final determina-  
17 tion on the Columbus Coated Fabric  
18 permit application. Additionally, Colum-  
19 bus Coated Fabric must meet all state  
20 requirements as well.

21 If U.S. EPA issues a permit to  
22 Columbus Coated Fabric, the company must  
23 comply with all of the conditions contain-  
24 ed in the permit.

25 These conditions, in turn, must

1 satisfy the requirements found in Title  
2 40 of the Code of Federal Regulations.  
3 The requirements include: The proper  
4 design, operation, and maintenance of  
5 Columbus Coated Fabrics' storage facility;  
6 accident preventions and preparedness;  
7 closure; and financial responsibility,  
8 among others.

9 Before accepting comments from the  
10 audience, Mr. Slaustas will present the  
11 background on Columbus Coated Fabric's  
12 permit application and U.S. EPA's draft  
13 permit. Following that, I will give you  
14 a summary of U.S. EPA's public participa-  
15 tion activities and requirements, and  
16 we will then accept comments from the  
17 audience.

18 Mr. Slaustas?

19 MR. SLAUSTAS: Columbus Coated  
20 Fabrics presently owns and operates a  
21 plant which manufactures decorative vinyl  
22 products. Hazardous wastes are generated  
23 from the manufacturing process as well  
24 as from a solvent recycling operation.

25 The hazardous wastes which are

1 generated and stored temporarily at  
2 Columbus Coated Fabrics include spent  
3 halogenated solvents, spent non-  
4 halogenated solvents, and still bottoms  
5 from the recovery of spent non-halogenated  
6 solvents. These wastes are considered  
7 hazardous due to ignitability or toxicity.

8 The hazardous waste storage facility  
9 at Columbus Coated Fabrics has a maximum  
10 capacity of 24,750 gallons in containers.  
11 The drums containing hazardous wastes  
12 are stored indoors on impervious concrete  
13 and the storage facility is designed to  
14 contain any inadvertent spill or leak.

15 Columbus Coated Fabrics filed a  
16 Part B permit application for this  
17 facility on September 30, 1982. After  
18 performing a completeness check, both  
19 U.S. EPA and Ohio EPA conducted a review  
20 for technical adequacy.

21 As a result of these reviews,  
22 Columbus Coated Fabrics provided  
23 additional information regarding their  
24 application. After completing the review  
25 for technical adequacy, Ohio EPA and U.S.

1 EPA jointly prepared a draft permit  
2 based on federal standards applicable  
3 to all hazardous waste facilities, as  
4 well as standards applicable for container  
5 storage.

6 The permit conditions are based  
7 on various requirements published in  
8 federal regulations pertaining to  
9 facilities which store hazardous wastes.  
10 The permit conditions encompass such  
11 items as waste analysis, personnel  
12 training, contingency plan, inspection  
13 requirements, and closure.

14 In addition to this proposed  
15 hazardous waste permit, Columbus Coated  
16 Fabrics has received a Hazardous Waste  
17 Facility Installation and Operation Permit  
18 from the State of Ohio.

19 Thank you.

20 MS. KATSURA: U.S. EPA fully  
21 supports RCRA's mandate to encourage  
22 public participation.

23 To briefly summarize U.S. EPA's  
24 public participation procedures, RCRA  
25 requires the Agency to notice its intent

1 to issue or deny a permit in a major  
2 local newspaper, to broadcast it over  
3 a local radio station, and to provide  
4 opportunity for a public hearing. On  
5 June 20, 1984, U.S. EPA published a  
6 public notice in the Columbus Dispatch.

7 The notice announced this public  
8 hearing and also announced the availa-  
9 bility for public inspection of the  
10 Agency's administrative record on  
11 Columbus Coated Fabric's permit applica-  
12 tion and the availability of the draft  
13 permit.

14 Radio Stations WFRD-AM and WBNS-AM  
15 broadcasted notices of this hearing on  
16 June 20, 1984.

17 The administrative record is availa-  
18 ble at U.S. EPA's Office in Chicago.  
19 This record includes: The permit  
20 application submitted by Columbus Coated  
21 Fabric, U.S. EPA's draft permit, our  
22 fact sheet, and other related background  
23 documents.

24 In addition, the application, the  
25 draft permit, and the fact sheet have

1           been made available at the Columbus  
2           Public Library, at 97 South Grant in  
3           Columbus.

4           All comments received tonight,  
5           whether written or oral, will become  
6           part of the administrative record.

7           The Code of Federal Regulations  
8           requires that the public notice allow  
9           for a 45-day public comment period. The  
10          June 20th public notice and radio announce-  
11          ment stated that the public comment  
12          period for this permit would end on  
13          August 1, 1984. This date was calculated  
14          in error. The correct date should have  
15          been August 6, 1984.

16          Therefore, the Agency is hereby  
17          announcing that the public comment period  
18          for the Agency's intent to issue an RCRA  
19          permit to Columbus Coated Fabric, has  
20          been extended to August 6, 1984. Written  
21          comments postmarked by August 6th will  
22          become part of the administrative record.

23          After the close of the public  
24          comment period on August 6th, U.S. EPA  
25          will evaluate all information received,

1 prior to reaching a final permit decision 9  
2 on the application.

3 When making its final decision,  
4 U.S. EPA will respond to all relevant  
5 comments which have been received during  
6 the public comment period, including  
7 those comments presented tonight.

8 If new information or evidence is  
9 submitted to U.S. EPA, and the informa-  
10 tion raises substantial new questions  
11 concerning the draft permit, U.S. EPA  
12 may prepare a new draft permit or a  
13 revised fact sheet.

14 If there is a need for substantial  
15 revision of the original draft permit  
16 or the Agency's preliminary permit  
17 conditions, the comment period may be  
18 extended or reopened. And, U.S. EPA  
19 will publish notice of this fact in the  
20 Columbus Dispatch.

21 If the comment period is reopened  
22 or extended, U.S. EPA will consider only  
23 those comments which pertain to the  
24 issues raised by the new information  
25 or evidence.

1 Along with the final permit decision, 10  
2 U.S. EPA will issue a responsiveness  
3 summary, which will contain U.S. EPA's  
4 response to the relevant comments which  
5 have been raised.

6 The summary will also indicate  
7 which conditions, if any, of the draft  
8 permit were changed. U.S. EPA will also  
9 indicate if any additional documents  
10 have been included in the administrative  
11 record. Both U.S. EPA's final permit  
12 decision and responsiveness summary will  
13 be included in the administrative record.

14 Notification of our final permit  
15 decision will be provided to Columbus  
16 Coated Fabric and to each individual who  
17 has either: presented oral comments at  
18 this hearing; submitted written comments;  
19 or requested notice of our decision.

20 If you filed comments on this  
21 draft permit, or participated in this  
22 public hearing by presenting comments,  
23 you may request U.S. EPA Administrator,  
24 William Ruckelshaus, to review and  
25 reconsider the final permit decision.

1           Persons who did not file comments  
2 orally at this hearing, or in writing  
3 during the public comment period, may  
4 request review only of the changes,  
5 if any, U.S. EPA made from the draft  
6 permit to the final permit.

7           All requests for review must be  
8 made within 30 days after the final  
9 permit decision has been issued and must  
10 be addressed to Administrator Ruckelshaus  
11 in Washington.

12          The specific procedures which you  
13 must follow in order to request review  
14 will be included in U.S. EPA's final  
15 permit decision. Copies of the appeal  
16 procedures are also available at the  
17 registration table.

18          For anyone present who does not  
19 plan to submit oral or written comments,  
20 but would like to receive notice of U.S.  
21 EPA's final permit decision and response  
22 to comments, there is a sign-up sheet  
23 at the registration table.

24          U.S. EPA will have a transcript  
25 made of tonight's hearing. If you

1 would like a copy of the transcript,  
2 please sign the sheet at the registration  
3 table. If the transcript is 50 pages  
4 or more, there will be a copying charge.

5 If you have not filled out a  
6 sign-in card, we would appreciate your  
7 doing so before you leave tonight. The  
8 sign-in cards are also at the registra-  
9 tion table. I recommend that you state  
10 for the record any comments or questions  
11 that you have.

12 I would like to stress at this  
13 point that the purpose of tonight's  
14 hearing is to collect your comments and  
15 questions. The Agency's official  
16 response or answers to your questions  
17 will not be presented this evening. But,  
18 the Agency will present its official  
19 response in the Responsiveness Summary.

20 I would like to repeat that the  
21 Agency will send you, free of charge, a  
22 copy of the Responsiveness Summary if  
23 you sign your name and address on the  
24 sheet at the registration table.

25 Mr. Slaustas and I will be available

1 during the break and after I adjourn this  
2 hearing. We will, at that time, attempt  
3 to provide you with any information  
4 that we can.

5 All persons wishing to speak tonight  
6 should register their intent on the  
7 sign-in cards. If you decide you want  
8 to present comments, and have not yet  
9 indicated your intent, please fill out  
10 a card and hand it to the hearing assis-  
11 tant. I will call the speakers in the  
12 order in which the requests to speak were  
13 received.

14 As your name is called, please  
15 step to the podium. Before you begin  
16 to speak, please give your name and spell  
17 your last name for the Court Reporter.  
18 Your comments, in written form, should  
19 be given to the Court Reporter before  
20 you begin your presentation.

21 Please limit your presentation to  
22 ten minutes. At the end of your presen-  
23 tation, Mr. Slaustas or I may ask you  
24 to clarify some of your comments.

25 If you have any questions on U.S.

1 EPA's procedures, or on the draft permit,  
2 Mr. Slaustas and I will be available  
3 at the break immediately following the  
4 hearing.

5 We will now begin to receive your  
6 comments. Please remember to repeat  
7 your name and spell it for the Reporter.

8 At this time we have one request  
9 to speak, Mr. Michael J. Pompili.

10 MR. POMPILI: My name is  
11 Michael J. Pompili, P-o-m-p-i-l-i.

12 In October of 1982, Columbus  
13 Coated Fabrics made application to the  
14 United States Environmental Protection  
15 Agency to establish a hazardous waste  
16 storage facility for still bottom waste,  
17 dust stop oil, plasticizer residue, and  
18 plating pit sludge at its 1280 North  
19 Grant Avenue business in Columbus.

20 The U.S. EPA has reviewed this  
21 application and determined that it  
22 appears to comply with U.S. EPA rules  
23 and the application appears to meet the  
24 performance standards set forth in  
25 Title 40, Part 264. Columbus Coated

1 Fabrics' application has also been review- 15  
2 ed by the Environmental Health Division  
3 of the Columbus Health Department and  
4 other appropriate agencies. In our  
5 review we have developed some concerns  
6 regarding the protection of the health,  
7 safety, and well-being of the surrounding  
8 community.

9 Although we are aware of the large  
10 quantities of hazardous materials stored  
11 at this facility current federal and  
12 state laws and this application deals  
13 only with hazardous wastes. Therefore  
14 our comments are directed solely toward  
15 the storage of hazardous waste at this  
16 site.

17 Our review of this application has  
18 highlighted several deficiencies which  
19 we feel must be addressed before a final  
20 permit is granted.

21 First, Part 264.37 states that  
22 "the owner or operator must attempt to  
23 make the following arrangements..(1)  
24 arrangements to familiarize police, fire  
25 departments, and emergency response teams

1 with the layout of the facility, proper-  
2 ties of hazardous wastes handled at the  
3 facility and associated hazards... and  
4 (2) arrangements to familiarize local  
5 hospitals with the properties of hazar-  
6 dous waste handled at the facility and  
7 the types of injuries or illness which  
8 could result from fires, explosions, or  
9 releases at the facility".

10 Although letters of transmittals  
11 along with the pertinent sections of  
12 the application have been submitted to  
13 the above mentioned agencies, to our  
14 knowledge no formal arrangements have  
15 been agreed upon by these agencies and  
16 the applicant as required by Part 264.52.

17 Secondly, the Division of Sewers  
18 and Drains from Columbus have expressed  
19 concerns about the containment procedures  
20 in the event of a spill outside the  
21 hazardous waste storage building. Among  
22 the questions raised are the following:

23 (1) Is the amount of stored  
24 emergency material for such spills ade-  
25 quate for containment, (2) can the

1 manhole in the street where such spills  
2 would be contained be sealed to prevent  
3 entry into the city's sewer system, and  
4 (3) are there other options available  
5 for spill containment?

6 Although the applicant states that  
7 evacuation of nearby residents is not  
8 needed in the event of an emergency at  
9 this facility, this department believes  
10 that such is not the case.

11 Residential property is within  
12 1,000 feet of the site and evacuation  
13 procedures might need to be initiated  
14 in the event of a fire or an explosion.

15 In addition, three schools are  
16 within one kilometer of the plant, their  
17 evacuation would be difficult under  
18 emergency conditions due to dependence  
19 upon public transportation.

20 Lastly, Part 264.16(d) requires "a  
21 written description of the type and  
22 amount of both introductory and continu-  
23 ing training that will be given to each  
24 person filling a hazardous waste manage-  
25 ment position". This information is

1           lacking in the application.

2           I would like to address our  
3       recommendations at this time. First,  
4       the Columbus Health Department desires  
5       that an inspection of the site is per-  
6       formed on a quarterly basis. Such a  
7       program, whether performed by the  
8       Columbus Fire Department, which has  
9       agreed to perform this inspection, the  
10      U.S. EPA, or our department, would help  
11      to insure that incompatible wastes would  
12      not be stored in close proximity to each  
13      other and that the stored containers  
14      would be in good condition.

15           Secondly, we recommend that a  
16      health assessment survey of the surround-  
17      ing community be conducted in the event  
18      of a fire or an explosion. The extent  
19      of any acute exposure from such an  
20      incident could then be determined.

21           In addition, we recommend environ-  
22      mental monitoring to be performed if a  
23      fire or spill does occur. The monitoring  
24      might include sampling the air, soil, or  
25      water surrounding the site depending on

1 the type and seriousness of the fire or  
2 spill.

3 To prevent the contamination of  
4 both ground water and public water supplies  
5 by the storage of hazardous waste at  
6 Columbus Coated Fabrics, we recommend  
7 that the Columbus Division of Water in  
8 cooperation with Columbus Coated Fabrics  
9 conduct a cross connection survey for  
10 the facility.

11 We also request that the previously  
12 mentioned application deficiencies be  
13 corrected or addressed before a final  
14 permit is issued. Specifically, we  
15 recommend that (1) the contingency plan  
16 include the arrangements agreed to by  
17 local police departments, fire depart-  
18 ments, and hospitals as required in Part  
19 264.52, (2) the Division of Sewers and  
20 Drains be contacted to discuss other op-  
21 tions other than hte storm sewer system  
22 for spills, (3) Columbus Coated Fabrics  
23 acknowledge possible need for evacuation  
24 plan for residents, and (4) the applica-  
25 tion contain a written description of the

1 type and amount of training given to each  
2 hazardous waste management personnel as  
3 required in Part 264.16.

4 The Columbus Health Department  
5 also recommends that Columbus Coated  
6 Fabrics notifies the Division of Fire  
7 in the event of a spill of 25 gallons or  
8 more of a flammable hazardous waste so  
9 as to reduce response time to any  
10 emergency.

11 Finally, we request that an  
12 extension of time be granted for the  
13 written comment period as cited in  
14 Part 124.12 of Title 40. This extension  
15 is needed to perform a thorough review  
16 of the application since a copy of the  
17 application was not received by our  
18 office until July 9, 1984.

19 In conclusion, the Columbus Health  
20 Department believes that an inspection  
21 program coupled with detailed contingency  
22 plans will help to minimize any adverse  
23 impact to the surrounding community.

24 We also request that the above  
25 conditions be incorporated within a

1 Memorandum of Understanding between the  
2 City of Columbus and the applicant.

3 However, if the U.S. EPA does not place  
4 these conditions on the permit, then we  
5 will oppose the permit and request that  
6 it be denied.

7 We are willing to sit down and  
8 discuss our recommendations with U.S.  
9 EPA and Columbus Coated Fabrics'  
10 representatives at any time and, thank you  
11 for your time.

12 MS. KATSURA: Is there anyone  
13 present who has requested to speak or  
14 whose name has not been called?

15 Is there anyone who would like to  
16 make a comment?

17 It is now 7:30 p.m. We will take  
18 a break. The hearing will remain open  
19 until 7:45 p.m. If anyone else arrives  
20 by that time, they will have an oppor-  
21 tunity to make a comment for the record.

22 We will now recess.

23 (Whereupon, a 20-minute recess  
24 was held.)

25 MS. KATSURA: It is now 7:50 p.m.

1 The hearing will reconvene.

2 As a result of Mr. Michael J.  
3 Pompili's request tonight for an  
4 extension of the public comment period,  
5 as well as our understanding that the  
6 Columbus Public Library did not acknowledge  
7 receipt of the Columbus Coated Fabrics'  
8 permit application and related documents  
9 until July 13th, 1984, we are granting  
10 an extension of the public comment period  
11 to allow all interested parties at least  
12 45 days to review the permit document.

13 The Agency is hereby announcing  
14 the public comment period for the  
15 Agency contends to issue a record permit  
16 to Columbus Coated Fabrics has been  
17 extended to August 27th, 1984. Written  
18 comments postmarked by August 27th will  
19 become part of the administrative Record.

20 Is there anyone who would like  
21 to make a comment?

22 Thank you very much for your  
23 participation in tonight's hearing. The  
24 hearing is adjourned.

25 (Whereupon, the hearing was  
adjourned.)

C E R T I F I C A T E

This is to certify that the  
foregoing proceedings were recorded by  
PHENON WILKES, Court Reporter, and that  
the same is a true and accurate  
transcript thereof.

Phenon Wilkes, Notary  
Public in and for the  
State of Ohio.

MR. KAWATACHI: Will the hearing  
please come to order.

Good evening ladies and gentlemen.  
My name is Art Kawatachi, and I am the  
Hearing Officer representing the Chicago  
office of the United States Environmental  
Protection Agency.

The purpose of tonight's hearing  
is to receive your comments into the  
record of U.S. EPA's intent to issue a  
Resource Conservation and Recovery Act  
permit to Columbus Steel Drum to operate  
a hazardous waste storage facility at  
1385 Blatt Boulevard, Blacklick, Ohio.

With me on the panel is James Mayka,  
the primary author of U.S. EPA's draft  
permit. Our hearing assistant at the  
registration table is April Katsura.

Under the Resource Conservation  
and Recovery Act, commonly referred to  
as RCRA, U.S. EPA has promulgated regu-  
lations to protect human health and the  
environment from the improper management  
of hazardous waste.

Section 3005 of RCRA, along with

1 regulations found in Title 40 of the  
2 Code of Federal Regulations, establish  
3 a permitting system governing the treat-  
4 ment, storage, and disposal of hazardous  
5 waste. These regulations enable U.S.  
6 EPA to issue or deny permits for hazardous  
7 waste facilities.

8 If a state is authorized, under  
9 Section 3006 of RCRA, it may issue or  
10 deny permits in lieu of U.S. EPA. Since  
11 the State of Ohio has not yet received  
12 the required authorization, U.S. EPA is  
13 responsible for making a final determina-  
14 tion on the Columbus Steel Drum's permit  
15 application. Additionally, Columbus Steel  
16 Drum must meet all state requirements  
17 as well.

18 If U.S. EPA issues a permit to  
19 Columbus Steel Drum, the company must  
20 comply with all of the conditions contain-  
21 ed in the permit. These conditions, in  
22 turn, must satisfy the requirements found  
23 in Title 40 of the Code of Federal  
24 Regulations. These requirements include:  
25 The proper design, operation, and

1 maintenance of Columbus Steel Drum's  
2 storage facility; accident preventions  
3 and preparedness; closure; and financial  
4 responsibility, among others.

5 Before accepting comments from  
6 the audience, Mr. Mayka will present  
7 the background on Columbus Steel Drum's  
8 permit application and U.S. EPA's  
9 draft permit.

10 Following that, I will give you  
11 a summary of U.S. EPA's public participa-  
12 tion activities and requirements, and  
13 we will then accept comments from the  
14 audience

15 MR. MAYKA: The Columbus  
16 Steel Drum Company is located on 1385  
17 Blatt Boulevard, Blacklick, Ohio. The  
18 company is primarily a reconditioner  
19 of used steel drums but operates as an  
20 extension of its business a small  
21 hazardous waste storage facility.

22 The hazardous waste that is stored  
23 originates from one of the following:

24 1) Residues found at the bottom of  
25 some incoming drums. 2) Caustic washes

1  
2  
3  
4  
5  
6  
7  
8  
9  
10  
11  
12  
13  
14  
15  
16  
17  
18  
19  
20  
21  
22  
23  
24  
25

used to clean out the drums. 3) Oxidation products used for burning the interiors of drums. 4) Floor sweepings from processed areas of the plants.

Hazardous waste storage, that is the subject of this draft permit, occurs only in closed drums in a specially designated drum storage area and in one underground storage tank.

The waste involved and considered hazardous under Federal law because it is ignitable, a regulatory term roughly meaning very flammable, or because they contain certain amounts of lead and/or Cadmium.

Lead and Cadmium are elements found in some of the paints and paint residue associated with the incoming barrels. These elements can be toxic if ingested at sufficiently high concentration.

The drum storage area is roughly a 40 foot by 20 foot outdoor concrete pad and the draft permit would allow no more than 100 55-gallon drums to be

1 stored there at any one time.

2 The drum storage area is fenced  
3 and posted and is surrounded by an  
4 eight inch high concrete curbing on all  
5 sides. The concrete pad is also banked  
6 so that any spills, leaks or accumulated  
7 precipitation will flow to one end  
8 where a collection basin is located.

9 The concrete strength is 400 pounds  
10 per square inch and the pad is reinforced  
11 with six inch by six inch by 9 gauge  
12 wire mesh and the curbing is reinforced  
13 with a half inch steel reinforcing rod.

14 The underground storage tank has  
15 the capacity of 6,000 gallons. The  
16 tank is constructed of one quarter inch  
17 thick steel and is set in sand strapped  
18 to a concrete pad.

19 The tank was constructed through  
20 Underwriters Laboartory specifications  
21 and the permit would require that the  
22 tank's thickness be maintained at the  
23 one quarter inch thickness.

24 No materials which could be  
25 corrosive to the steel are stored in

1 the tank. Access to the tank for  
2 inspection purposes is via a manhole  
3 type cover located above grade on top  
4 of the tank and includes a built-in  
5 access ladder.

6 Overflowing of the tank is  
7 prevented by means of a automatic  
8 overflow switch activated by slopes  
9 located in the tank.

10 The tank construction and  
11 operation meets all applicable National  
12 Fire Protection Association standards.  
13 Columbus Steel Drum filed its Federal  
14 permit application in May of 1983.  
15 After a formal review that showed the  
16 application was complete that it address-  
17 ed all items required by regulations  
18 both the Ohio Invironmental Protection  
19 Agency and the United States Environmental  
20 Protection Agency undertook a technical  
21 adequacy review to insure that the  
22 facility will be able to comply with  
23 all of the technical permitting standards  
24 required by Federal law.

25 The company satisfied both

1 agencies that the standards would be met.

2 The draft permit, if issued,  
3 incorporates all of the applicable  
4 Federal standards. Actual portions of  
5 Columbus Steel Drum's permit application  
6 are also incorporated in this permit.  
7 These include a waste analysis plan, an  
8 inspection schedule, a training program,  
9 a contingency plan, and certain operating  
10 procedures for the underground tank.

11 This permit, if issued, would  
12 allow the company to store hazardous  
13 waste only in drums and in one tank.  
14 No burial or disposal of hazardous waste,  
15 in any manner, occurs now or can occur  
16 on this site.

17 Thank you.

18 MR. KAWATACHI: U.S. EPA fully  
19 supports RCRA's mandate to encourage  
20 public participation. To briefly  
21 summarize our public participation pro-  
22 cedures, RCRA requires the agency to  
23 notice its intent to issue or deny a  
24 permit in a major local newspaper, to  
25 broadcast it over a local radio station,

1 and to provide opportunity for a public  
2 hearing.

3 On June 25, 1984, U.S. EPA publish-  
4 ed in the Columbus Dispatch the notice  
5 of this public hearing. It also announced  
6 the availability for public inspection  
7 of the Agency's administrative record on  
8 Columbus Steel Drum's permit application  
9 and our draft permit. Radio Stations  
10 WRFD - AM and WBNS - AM broadcasted notice  
11 of this hearing of June 25th.

12 The administrative record is  
13 available at U.S. EPA's office in  
14 Chicago. This record includes: The  
15 permit application submitted by Columbus  
16 Steel Drum, U.S. EPA's draft permit,  
17 statement of basis, and other related  
18 background documents.

19 In addition, the application, the  
20 draft permit, and statement of basis  
21 have been made available at this Columbus  
22 Public Library, and at the Reynoldsburg  
23 Branch Library, 1402 Brice Road,  
24 Reynoldsburg, Ohio.

25 All comments received tonight,

whether written or oral, will become part of the administrative record.

After the close of the public comment period on August 10th, U.S. EPA will evaluate all information received, prior to reaching a final permit decision on the application. When making its final decision, U.S. EPA will respond to all relevant comments which have been received during the public comment period, including those comments presented tonight.

If new information or evidence is submitted to U.S. EPA, and the information raises substantial new questions concerning the draft permit, U.S. EPA may prepare a new draft permit or a revised statement of basis.

If there is a need for substantial revision of the original draft permit or the Agency's preliminary permit conditions, the comment period may be extended or reopened, and U.S. EPA will publish notice of this fact in the Columbus Dispatch.

1           If the comment period is reopened  
2 or extended, U.S. EPA will consider only  
3 those comments which pertain to the issues  
4 raised by the new information or evidence.

5           Along with the final permit  
6 decision, U.S. EPA will issue a respon-  
7 siveness summary, which will contain our  
8 response to the relevant comments which  
9 have been raised.

10           The summary will also indicate  
11 which conditions, if any, of the draft  
12 permit were changed. U.S. EPA will  
13 also indicate if any additional documents  
14 have been included in the administrative  
15 record. Both U.S. EPA's final permit  
16 decision and responsiveness summary will  
17 be included in the administrative record.

18           Notification of our final permit  
19 decision will be provided to Columbus  
20 Steel Drum and to each individual who  
21 has either: presented oral comments at  
22 this hearing; submitted written comments;  
23 or requested notice of our decision.

24           If you made comments on this draft  
25 permit, or participated in this public

1 hearing by presenting comments, you may  
2 request U.S. EPA Administrator, William  
3 Ruckelshaus, to review and reconsider  
4 the final permit decision.

5 Persons who did not file comments  
6 orally at this hearing, or in writing  
7 during the public comment period, may  
8 request review only of the changes U.S.  
9 EPA made, if any, from the draft permit  
10 to the final permit.

11 All requests for review must be  
12 made within 30 days after the final  
13 permit decision has been issued and must  
14 be addressed to Administrator Ruckelshaus  
15 in Washington.

16 The specific procedures which you  
17 must follow in order to request review  
18 will be included in our final permit  
19 decision.

20 Copies of the appeal procedures  
21 are also available at the registration  
22 table. For anyone present who does not  
23 plan to submit oral or written comments,  
24 but would like to receive notice of our  
25 final permit decision and response to

1 comments, there is a sign-up sheet at  
2 the registration table.

3 U.S. EPA will have a transcript  
4 made of tonight's hearing. If you would  
5 like a copy of the transcript, please  
6 sign the sheet at the registration table.  
7 If the transcript is 50 pages or more,  
8 there will be a copying charge.

9 If you have not filled out a sign-in  
10 card, we would appreciate your doing so  
11 before you leave tonight. The sign-in  
12 cards are also at the registration table.

13 I should like to stress at this  
14 point that the purpose of tonight's  
15 hearing is to receive your comments into  
16 the record. U.S. EPA will present its  
17 official response in the responsiveness  
18 summary. We will be available after this  
19 hearing to provide you with any informa-  
20 tion available.

21 All persons wishing to speak tonight  
22 should register their intent on the  
23 sign-in cards. If you decide you want to  
24 present comments, and have not yet  
25 indicated your intent, please fill out

1 a card and hand it to the hearing  
2 assistant. I will call the speakers in  
3 the order in which the requests to speak  
4 were received.

5 As your name is called, please  
6 step to the podium. Before you begin  
7 to speak, please give your name and  
8 spell your last name for the Court  
9 Reporter.

10 Your comments, in written form,  
11 should be given to the Court Reporter  
12 before you begin your presentation.

13 Please limit your presentation  
14 to ten minutes. At the end of your  
15 presentation, we may ask you to clarify  
16 some of your comments.

17 You may submit longer comments in  
18 writing tonight or anytime before the  
19 close of the public comment period on  
20 August 10, 1984.

21 If you have any questions on U.S.  
22 EPA's procedures, or on the draft permit,  
23 we will be available immediately follow-  
24 ing the hearing.

25 We will now begin to receive your

1 comments. Please remember to repeat  
2 your name and spell it for the Reporter.

3 Is there anyone who would like to  
4 make a comment?

5 It is now 7:20 p.m. We will take a  
6 break. The hearing will remain open until  
7 7:50 p.m. If anyone else arrives by that  
8 time, they will have an opportunity to  
9 make a comment for the record.

10 We will now recess. In the meantime,  
11 we will take some questions and answers  
12 from the audience, if there are any.

13 It is now 7:50 p.m.  
14 The hearing will reconvene.

15 Is there anyone who would like to  
16 make a comment?

17 These will be off the record.

18 (Whereupon, a 30-minute recess was  
19 taken and questions were answered.)

20 Thank you very  
21 much for your participation in tonight's  
22 hearing. The hearing is adjourned.

23 (Whereupon, the hearing was  
24 adjourned.)  
25

June 22, 1984

Michael Ohm  
U.S. EPA Region V  
Waste Management Branch  
230 South Dearborn Street  
Chicago, Illinois 60604

Dear Mr. Ohm:

This letter is in response to the public notice concerning the U.S. EPA's intent to issue a RCRA permit for Columbus Coated Fabrics in Columbus, Ohio. It is our intention to testify at the public hearing and to provide written comment on the application before the issuance of a final permit decision. To that end, the City of Columbus is requesting the following:

- (1) an extension of time for the public hearing so that a coalition of city agencies and other interested parties can adequately review the application; and
- (2) a copy of the application, the U.S. EPA's draft permit, and the Statement of Basis.

I believe these requests are vital to the health, safety, and well-being of the residents surrounding this facility.

Since the Columbus Health Department has been designated as the lead agency for local hazardous materials involvement, please direct all future correspondence regarding this application and other hazardous waste permits to the staff person listed below:

Gary Brown  
Columbus Health Department  
Environmental Health Division  
181 S. Washington Blvd.  
Columbus, Ohio 43215

Sincerely,

*William C. Myers, M.S.*

COLUMBUS COATED FABRICS DRAFT PERMIT

RADIO BROADCAST ANNOUNCEMENT

The United States Environmental Protection Agency Region V (five) intends to issue a permit to Columbus Coated Fabrics (CCF), to operate its hazardous waste storage facility at 1280 North Grant Street, Columbus, Ohio.

U.S. EPA is seeking public comments before a final decision is made to issue the permit. Written comments on the draft permit will be received by U.S. EPA and must be postmarked no later than August 1, 1984.

A public hearing on the CCF draft permit was requested and will be held on Wednesday, July 25, 1984, at the Columbus Public Library Auditorium, 97 South Grant Street, Columbus, Ohio, from 7:00 p.m. to 10:00 p.m.

For more information, citizens should contact Waste Management branch at (312) 886-1657.

JUN 13 1984

5HW-13

Enclosed is a copy of the Public Notice that will appear on June 20, 1984, in the Columbus Dispatch. The United States Environmental Protection Agency (U.S. EPA) is announcing the availability for public review of a draft Resource Conservation and Recovery Act (RCRA) permit for Columbus Coated Fabrics (CCF), to operate a hazardous waste storage facility in Columbus, Ohio. U.S. EPA is inviting public comments on the draft permit, which specifies conditions under which CCF must manage hazardous wastes in order to comply with Federal regulations.

A public hearing has been scheduled for July 25, 1984, at the Columbus Main Library, Auditorium, 97 South Grant Avenue, Columbus, Ohio. The hearing will begin at 7:00 p.m., and will continue until all persons, who have registered, have had an opportunity to present their comments for the record.

Enclosed for your information is a copy of the Statement of Basis and pertinent public participation procedures. Please contact Mr. Mike Ohm, of my staff, at (312) 886-1657, for copies of U.S. EPA's draft permit for CCF.

Before taking final action on the permit, U.S. EPA Region V will give full consideration to all public comments that are relevant to the terms and conditions of the permit. These terms and conditions are based on Federal permitting regulations, as outlined in Title 40 of the Code of Federal Regulations, Part 270.

Please contact Mr. Ohm, if you have any questions, or desire additional information.

Sincerely yours,

  
Karl J. Klepitsch, Jr., Chief  
Waste Management Branch

PUBLIC SERVICE ANNOUNCEMENT

THE UNITED STATES ENVIRONMENTAL PROTECTION AGENCY REGION FIVE IS HOLDING A PUBLIC HEARING ON THE ISSUANCE OF A RESOURCE CONSERVATION AND RECOVERY ACT PERMIT TO ALLOW COLUMBUS COATED FABRICS, A DIVISION OF BORDEN, INC., TO STORE HAZARDOUS WASTE AT 1280 NORTH GRANT STREET, COLUMBUS, OHIO. THE PERMIT WOULD ALLOW COLUMBUS COATED FABRICS TO STORE VARIOUS HALOGENATED (METHYLENE CHLORIDE) AND NON-HALOGENATED SOLVENTS (CYCLOHEXANONE), AS WELL AS ELECTROPLATING SLUDGE. THESE WASTES ARE LISTED AS HAZARDOUS DUE TO THE CHARACTERISTICS OF IGNIBILITY AND/OR TOXICITY.

THE HEARING WILL BE HELD ON JULY 25, 1984, AT 7:00 P.M. AT THE COLUMBUS PUBLIC LIBRARY, AUDITORIUM, 96 SOUTH GRANT STREET, COLUMBUS, OHIO.

041-38

### PUBLIC NOTICE

The United States Environmental Protection Agency (U.S. EPA), Region V, is hereby giving notice of its intent to issue a Resource Conservation and Recovery Act (RCRA) permit for Columbus Coated Fabrics (CCF), in accordance with Section 7004 of the RCRA and Title 40 CFR 124.10. This permit would allow CCF to operate a hazardous waste storage facility at 1280 North Grant Street, Columbus, Ohio. U.S. EPA is inviting public comments, and will hold a public hearing on this application.

CCF is primarily a manufacturer of decorative vinyl products. Hazardous wastes are generated from the manufacturing process as well as from a solvent recycling operation. The hazardous wastes generated at this location are stored in containers prior to shipment off-site for treatment or disposal. The drums containing hazardous wastes are stored on impervious concrete and the facility is designed to contain any inadvertent leak or spill. The hazardous wastes generated and stored temporarily at CCF include spent halogenated solvents, spent non-halogenated solvents, residue or still bottoms from recovery of spent non-halogenated solvents, and electroplating sludge.

The CCF application, the U.S. EPA's draft permit and the Statement of Basis are available for public review at the Columbus Public Library, Business and Technology Division, 97 South Grant Street, Columbus, Ohio. These materials and other supporting documents also are available in the administrative record at the U.S. EPA Region V, Waste Management Branch, 230 South Dearborn Street, Chicago 60604 from 9:00 a.m. to 4:30 p.m. weekdays. Contact Michael Ohm at (312) 886-1657.

A public hearing has been requested and will be held July 25, 1984, at the Columbus Public Library, Auditorium, 97 South Grant Street, Columbus, Ohio. The hearing will start at 7:00 p.m. and will continue until all persons that have registered have had an opportunity to present their comments for the record.

In addition, written comments on the application and draft permit will be accepted by U.S. EPA and must be postmarked by August 1, 1984. Comments on the application and draft permit should be sent to Michael Ohm, U.S. EPA Region V, Waste Management Branch, 230 South Dearborn Street, Chicago, Illinois 60604.

After the close of the public comment period, the U.S. EPA will evaluate all comments received before issuing a final permit decision. Notification of the final permit decision will be provided to each person who presented oral testimony, submitted written comments, or requested notice of the decision. Under Title 40 CFR Section 124.17, the U.S. EPA will respond to all significant comments on the draft permit, specify which provisions of the permit were changed, and indicate whether additional documents have been included in the administrative record.

The final decision will also include a reference to the procedures for appealing the decision, (Title 40 Section 124.19). The U.S. EPA's procedures for public comment and hearings are found in 40 CFR Sections 124.11 through 124.13.

---

PUBLIC HEARING HELD IN COLUMBUS, OHIO, ON THE U.S. EPA'S INTENT  
TO ISSUE A RCRA PERMIT TO COLUMBUS COATED FABRICS

SIGNIFICANT ACTION MEMO COMMENTS:

On July 25, 1984, the Public Hearing in Columbus, Ohio was attended by 12 people, representing the facility, the City of Columbus, the County of Franklin, and the communication media.

During the formal hearing there was only one speaker who chose to give comments for the record. The speaker represented the Columbus Health Department. As a part of the speaker's comments, he requested an extension of the comment period. The request was granted, and the comment period was extended to August 27, 1984. The hearing was attended by representatives of two television stations and one newspaper. The general atmosphere of those in attendance was quiet and orderly.

## U.S. EPA TO HOLD PUBLIC HEARING ON RCRA PERMIT FOR COLUMBUS, OHIO, FACILITY

The U.S. Environmental Protection Agency (U.S. EPA) Region V will hold a public hearing and take public comments on the Agency's intent to issue a Resource Conservation and Recovery Act (RCRA) permit to Columbus Coated Fabrics, a division of Borden, Inc., Columbus, Ohio. The permit would allow Columbus Coated Fabrics to continue operating a hazardous waste storage facility at 1280 North Grant St.

The public hearing will be held on July 25, 1984, at Columbus Public Library Auditorium, 96 South Grant St. The hearing will continue until all registered persons have had an opportunity to present their comments for the record.

All speakers should register by 7:30 p.m., limit their oral presentation to 5 minutes and, when possible, also submit their comments in writing. Comments will be accepted by U.S. EPA through August 1, 1984, and should be sent to Michael Ohm, 5HW-13, U.S. EPA Region V, 230 South Dearborn St., Chicago, IL 60604.

- MORE -

041-51

Before taking final action on the permit, the U.S. EPA Region V will give full consideration to all relevant comments received and postmarked by August 1, 1984.

Columbus Coated Fabrics is primarily a manufacturer of decorative vinyl products. Hazardous wastes are generated from the manufacturing process as well as from a solvent recycling operation. The hazardous wastes generated at this location are stored in containers prior to shipment offsite for treatment or disposal. The drums containing hazardous wastes are stored on impervious concrete, and the facility is designed to contain any inadvertent leak or spill. The hazardous wastes generated and stored temporarily at the facility include spent halogenated solvents, spent nonhalogenated solvents, residue or still bottoms from recovery of spent nonhalogenated solvents, and electroplating sludge. Columbus Coated Fabrics has been storing hazardous wastes at the Columbus facility, without incident, since 1978.

Interested persons may review the Columbus Coated Fabrics permit application and U.S. EPA's draft permit at the Columbus Public Library, Business and Technology Division, and at U.S. EPA's Chicago Office. For further information, please contact Michael Ohm, (312) 886-1657.

Testimony for Columbus Coated Fabrics Public Hearing

July 25, 1984

Time: 7:00 P.M.

Location: 97 S. Grant Avenue, Columbus Main Library

In October of 1982, Columbus Coated Fabrics made application to the United States Environmental Protection Agency to establish a hazardous waste storage facility for still bottom waste, dust stop oil, plasticizer residue, and plating pit sludge at its 1280 North Grant Avenue business in Columbus. The U.S.E.P.A. has reviewed this application and determined that it appears to comply with U.S.E.P.A. rules and the application appears to meet the performance standards set forth in Title 40 Part 264. Columbus Coated Fabric's application has also been reviewed by the Environmental Health Division of the Columbus Health Department and other appropriate agencies. In our review we have developed some concerns regarding the protection of the health, safety, and well being of the surrounding community.

Although we are aware of the large quantities of hazardous materials stored at this facility current federal and state laws and this application deals only with hazardous wastes. Therefore our comments are directed solely toward the storage of hazardous waste at this site. Our review of this application has highlighted several deficiencies which we believe must be addressed before a final permit is granted. First, Part 264.37 states that "the owner or operator must attempt to make the following arrangements...(1) arrangements to familiarize police, fire departments, and emergency response teams with the layout of the facility, properties of hazardous wastes handled at the facility and associated hazards... and (2) arrangements to familiarize local hospitals with the properties of hazardous waste handled at the facility and the types of injuries or illness which could result from fires, explosions, or releases at the facility". Although letters of transmittals along with the pertinent sections of the application have been submitted to the above mentioned agencies, to our knowledge no formal arrangements have been agreed upon by these agencies and the applicant as required by Part 264.52. Secondly, the Division of Sewers and Drains have expressed concerns about the containment procedures in the event of a spill outside the hazardous waste storage building. Among the questions raised are the following: (1) is the amount of stored emergency material for such spills adequate for containment, (2) can the manhole in the street where such a spill would be contained be sealed to prevent entry into the city's sewer system, and (3) are there other portions available for spill containment? Although the applicant

states that evacuation of nearby residents is not needed in the event of an emergency at this facility, this department believes that such is not the case. Residential property is within 1000 feet of the site and evacuation procedures might need to be initiated in the event of a fire or an explosion. In addition, three schools are within one kilometer of the plant, their evacuation would be difficult under emergency conditions due to dependence upon public transportation. Lastly, Part 264.16(d) requires "a written description of the type and amount of both introductory and continuing training that will be given to each person filling a hazardous waste management position". This information is lacking in the application.

I would like to address our recommendations at this time. First, the Columbus Health Department desires that an inspection of the site is performed on a quarterly basis. Such a program, whether performed by the Columbus Fire Department, which has agreed to perform this inspection, the U.S.E.P.A., or our department, would help to insure that incompatible wastes would not be stored in close proximity to each other and that the stored containers would be in good condition. Secondly, we recommend that a health assessment survey of the surrounding community be conducted in the event of a fire or an explosion. The extent of any acute exposure from such an incident could then be determined. In addition we recommend environmental monitoring to be performed if a fire or spill does occur. The monitoring might include sampling the air, soil, or water surrounding the site depending on the type and seriousness of the fire or spill. To prevent the contamination of both ground water and public water supplies by the storage of hazardous waste at Columbus Coated Fabrics, we recommend that the Columbus Division of Water in cooperation with Columbus Coated Fabrics conduct a cross connection survey for the facility. We also request that the previously mentioned application deficiencies be corrected or addressed before a final permit is issued. Specifically, we recommend that (1) the contingency plan include the arrangements agreed to by local police departments, fire departments, and hospitals as required in Part 264.52, (2) the Division of Sewers and Drains be contacted to discuss other options other than the storm sewer system for spills, (3) Columbus Coated Fabrics acknowledge possible need for evacuation plan of residents, and (4) the application contain a written description of the type and amount of training given to each hazardous waste management personnel as required in Part 264.16. The Columbus Health Department also recommends that Columbus Coated Fabrics notifies the Division of Fire in the event of a spill of 25 gallons or more of a flammable hazardous waste so as to

reduce response time to any emergency. Finally we request that an extension of time be granted for the written comment period as cited in Part 124.12 of Title 40. This extension is needed to perform a thorough review of the application since a copy of the application was not received by our office until July 9, 1984.

In conclusion, the Columbus Health Department believes that an inspection program coupled with detailed contingency plans will help to minimize any adverse impact to the surrounding community. We also request that the above conditions be incorporated within a Memorandum of Understanding between the City of Columbus and the applicant. However if the U.S.E.P.A. does not place these conditions on the permit, then we will oppose the permit and request that it be denied.

RESOURCE CONSERVATION AND RECOVERY ACT  
PUBLIC HEARING TO BE HELD ON PROPOSED RCRA PERMIT  
FOR COLUMBUS COATED FABRICS FACILITY IN COLUMBUS, OHIO

On Wednesday, July 25, 1984, a public hearing will be held at the Columbus & Franklin County Library Auditorium regarding the permit for Columbus Coated Fabrics' hazardous waste storage facility in Columbus. Columbus Coated Fabrics generates spent solvents or residues in its operation of a small hazardous waste storage facility. Hazardous waste storage occurs only in closed drums in a specially designed drum storage area.

As of this date only one written comment has been received. Mr. Gary Brown, *William C. Myers* of the Columbus Department of Health, submitted a letter of inquiry requesting technical permit information.

Public comments on the draft permit will be accepted until August 6, 1984.

JUN 07 1984

Mr. Dave Urbanski  
Business and Technology Division  
Columbus Public Library  
96 South Grant Street  
Columbus, Ohio 43215

Dear Mr. Urbanski:

Per our telephone conversation on May 29, 1984, regarding the intention by the U.S. Environmental Protection Agency (U.S. EPA) Region V to issue a hazardous waste permit to Columbus Coated Fabrics (CCF) in Columbus, Ohio, the following items have been enclosed:

- A copy of the CCF permit application
- A copy of the U.S. EPA Region V draft permit for CCF
- A copy of the U.S. EPA Region V Statement of Basis
- A copy of the Public Notice to be published in the Columbus Dispatch on June 20, 1984, advising the availability of these materials in the Columbus library.
- A copy of the U.S. EPA regulations on comment and appeal procedures

Thank you for your assistance in making these materials available to the public for review.

Please retain the materials on file for public access until further notified. I am enclosing postage and fees paid labels for your return of the documents, and will contact you at that time. Also, please let me know that you have received this material by completing and signing the enclosed verification form. The form should be returned to me in the enclosed self-addressed, postage and fees paid envelope.

Thank you very much for your cooperation in assisting our effort to serve the public.

Sincerely,

Michael Ohm  
Environmental Protection Assistant

041-47

WILL THE HEARING PLEASE COME TO ORDER. GOOD EVENING LADIES AND GENTLEMEN. MY NAME IS APRIL KATSURA, AND I AM THE HEARING OFFICER REPRESENTING THE CHICAGO OFFICE OF THE UNITED STATES ENVIRONMENTAL PROTECTION AGENCY. THE PURPOSE OF TONIGHT'S HEARING IS TO RECEIVE YOUR COMMENTS INTO THE RECORD OF U.S. EPA'S INTENT TO ISSUE A RESOURCE CONSERVATION AND RECOVERY ACT PERMIT TO COLUMBUS COATED FABRIC, A DIVISION OF BORDEN INCORPORATED, TO OPERATE A HAZARDOUS WASTE STORAGE FACILITY AT 1280 NORTH GRANT STREET, COLUMBUS, OHIO. WITH ME ON THE PANEL IS CHARLES SLAUSTAS, THE PRIMARY AUTHOR OF U.S. EPA'S DRAFT PERMIT. OUR HEARING ASSISTANT AT THE REGISTRATION TABLE IS ARTHUR KAWATACHI.

UNDER THE RESOURCE CONSERVATION AND RECOVERY ACT, COMMONLY REFERRED TO AS RCRA, U.S. EPA HAS PROMULGATED REGULATIONS TO PROTECT HUMAN HEALTH AND THE ENVIRONMENT FROM THE IMPROPER MANAGEMENT OF HAZARDOUS WASTE. SECTION 3005 OF RCRA, ALONG WITH REGULATIONS FOUND IN TITLE 40 OF THE CODE OF FEDERAL REGULATIONS, ESTABLISH A PERMITTING SYSTEM GOVERNING THE TREATMENT, STORAGE, AND DISPOSAL OF HAZARDOUS WASTE. THESE REGULATIONS ENABLE U.S. EPA TO ISSUE OR DENY PERMITS FOR HAZARDOUS WASTE FACILITIES.

IF A STATE IS AUTHORIZED, UNDER SECTION 3006 OF RCRA, IT MAY ISSUE OR DENY PERMITS IN LIEU OF U.S. EPA. SINCE THE STATE OF OHIO HAS NOT YET RECEIVED THE REQUIRED AUTHORIZATION, U.S. EPA IS RESPONSIBLE FOR MAKING A FINAL DETERMINATION ON THE COLUMBUS COATED FABRIC PERMIT APPLICATION. ADDITIONALLY, COLUMBUS COATED FABRIC MUST MEET ALL STATE REQUIREMENTS AS WELL.

041-46

IF U.S. EPA ISSUES A PERMIT TO COLUMBUS COATED FABRIC, THE COMPANY MUST COMPLY WITH ALL OF THE CONDITIONS CONTAINED IN THE PERMIT. THESE CONDITIONS, IN TURN, MUST SATISFY THE REQUIREMENTS FOUND IN TITLE 40 OF THE CODE OF FEDERAL REGULATIONS. THESE REQUIREMENTS

INCLUDE: THE PROPER DESIGN, OPERATION, AND MAINTENANCE OF COLUMBUS COATED FABRIC'S STORAGE FACILITY; ACCIDENT PREVENTIONS AND PREPAREDNESS; CLOSURE; AND FINANCIAL RESPONSIBILITY, AMONG OTHERS.

BEFORE ACCEPTING COMMENTS FROM THE AUDIENCE, MR. SLAUSTAS WILL PRESENT THE BACKGROUND ON COLUMBUS COATED FABRIC'S PERMIT APPLICATION AND U.S. EPA'S DRAFT PERMIT. FOLLOWING THAT, I WILL GIVE YOU A SUMMARY OF U.S. EPA'S PUBLIC PARTICIPATION ACTIVITIES AND REQUIREMENTS, AND WE WILL THEN ACCEPT COMMENTS FROM THE AUDIENCE.

MR. SLAUSTAS.

THANK YOU CHUCK.

U.S. EPA FULLY SUPPORTS RCRA'S MANDATE TO ENCOURAGE PUBLIC PARTICIPATION. TO BRIEFLY SUMMARIZE U.S. EPA'S PUBLIC PARTICIPATION PROCEDURES, RCRA REQUIRES THE AGENCY TO NOTICE ITS INTENT TO ISSUE OR DENY A PERMIT IN A MAJOR LOCAL NEWSPAPER, TO BROADCAST IT OVER A LOCAL RADIO STATION, AND TO PROVIDE OPPORTUNITY FOR A PUBLIC HEARING. ON JUNE 20, 1984, U.S. EPA PUBLISHED A PUBLIC NOTICE IN THE COLUMBUS DISPATCH. THE NOTICE ANNOUNCED THIS PUBLIC HEARING AND ALSO ANNOUNCED THE AVAILABILITY FOR PUBLIC INSPECTION OF THE AGENCY'S ADMINISTRATIVE RECORD ON COLUMBUS COATED FABRIC'S PERMIT APPLICATION AND THE AVAILABILITY OF THE DRAFT PERMIT. RADIO STATIONS WFRD-AM, BROADCASTED NOTICES OF THIS HEARING ON JUNE 20, 1984. AND WBNS-AM

THE ADMINISTRATIVE RECORD IS AVAILABLE AT U.S. EPA'S OFFICE IN CHICAGO. THIS RECORD INCLUDES: THE PERMIT APPLICATION SUBMITTED BY COLUMBUS COATED FABRIC, U.S. EPA'S DRAFT PERMIT, OUR FACT SHEET, AND OTHER RELATED BACKGROUND DOCUMENTS. IN ADDITION, THE APPLICATION, THE DRAFT PERMIT, AND THE FACT SHEET HAVE BEEN MADE AVAILABLE AT THE COLUMBUS PUBLIC LIBRARY, AT 97 SOUTH GRANT IN COLUMBUS. ALL COMMENTS RECEIVED TONIGHT, WHETHER WRITTEN OR VERBAL, WILL BECOME PART OF THE ADMINISTRATIVE RECORD.

THE CODE OF FEDERAL REGULATIONS REQUIRES THAT THE PUBLIC NOTICE ALLOW FOR A 45-DAY PUBLIC COMMENT PERIOD. THE JUNE 20TH PUBLIC NOTICE AND RADIO ANNOUNCEMENT STATED THAT THE PUBLIC COMMENT PERIOD FOR THIS PERMIT WOULD END ON AUGUST 1, 1984. THIS DATE WAS CALCULATED IN ERROR. THE CORRECT DATE SHOULD HAVE BEEN AUGUST 6, 1984. THEREFORE, THE AGENCY IS HEREBY ANNOUNCING THAT THE PUBLIC COMMENT PERIOD FOR THE AGENCY'S INTENT TO ISSUE A RCRA PERMIT TO COLUMBUS COATED FABRIC, HAS BEEN EXTENDED TO AUGUST 6, 1984. WRITTEN COMMENTS POSTMARKED BY AUGUST 6TH WILL BECOME PART OF THE ADMINISTRATIVE RECORD.

AFTER THE CLOSE OF THE PUBLIC COMMENT PERIOD ON AUGUST 6TH, U.S. EPA WILL EVALUATE ALL INFORMATION RECEIVED, PRIOR TO REACHING A FINAL PERMIT DECISION ON THE APPLICATION. WHEN MAKING ITS FINAL DECISION, U.S. EPA WILL RESPOND TO ALL RELEVANT COMMENTS WHICH HAVE BEEN RECEIVED DURING THE PUBLIC COMMENT PERIOD, INCLUDING THOSE COMMENTS PRESENTED TONIGHT.

IF NEW INFORMATION OR EVIDENCE IS SUBMITTED TO U.S. EPA, AND THE INFORMATION RAISES SUBSTANTIAL NEW QUESTIONS CONCERNING THE DRAFT PERMIT, U.S. EPA MAY PREPARE A NEW DRAFT PERMIT OR A REVISED FACT SHEET. IF THERE IS A NEED FOR SUBSTANTIAL REVISION OF THE ORIGINAL DRAFT PERMIT OR THE AGENCY'S PRELIMINARY PERMIT CONDITIONS, THE COMMENT PERIOD MAY BE EXTENDED OR REOPENED, AND U.S. EPA WILL PUBLISH NOTICE OF THIS FACT IN THE COLUMBUS DISPATCH. IF THE COMMENT PERIOD IS REOPENED OR EXTENDED, U.S. EPA WILL CONSIDER ONLY THOSE COMMENTS WHICH PERTAIN TO THE ISSUES RAISED BY THE NEW INFORMATION OR EVIDENCE.

ALONG WITH THE FINAL PERMIT DECISION, U.S. EPA WILL ISSUE A RESPONSIVENESS SUMMARY, WHICH WILL CONTAIN U.S. EPA'S RESPONSE TO THE RELEVANT COMMENTS WHICH HAVE BEEN RAISED. THE SUMMARY WILL ALSO INDICATE WHICH CONDITIONS, IF ANY, OF THE DRAFT PERMIT WERE CHANGED. U.S. EPA WILL ALSO INDICATE IF ANY ADDITIONAL DOCUMENTS HAVE BEEN INCLUDED IN THE ADMINISTRATIVE RECORD. BOTH U.S. EPA'S FINAL PERMIT DECISION AND RESPONSIVENESS SUMMARY WILL BE INCLUDED IN THE ADMINISTRATIVE RECORD.

NOTIFICATION OF OUR FINAL PERMIT DECISION WILL BE PROVIDED TO COLUMBUS COATED FABRIC AND TO EACH INDIVIDUAL WHO HAS EITHER: PRESENTED ORAL COMMENTS AT THIS HEARING; SUBMITTED WRITTEN COMMENTS; OR REQUESTED NOTICE OF OUR DECISION.

IF YOU FILED COMMENTS ON THIS DRAFT PERMIT, OR PARTICIPATED IN THIS PUBLIC HEARING BY PRESENTING COMMENTS, YOU MAY REQUEST U.S. EPA ADMINISTRATOR, WILLIAM RUCKELSHAUS, TO REVIEW AND RECONSIDER THE FINAL PERMIT DECISION. PERSONS WHO DID NOT FILE COMMENTS ORALLY AT THIS HEARING, OR IN WRITING DURING THE PUBLIC COMMENT PERIOD, MAY REQUEST REVIEW ONLY OF THE CHANGES, IF ANY, U.S. EPA MADE FROM THE DRAFT PERMIT TO THE FINAL PERMIT.

ALL REQUESTS FOR REVIEW MUST BE MADE WITHIN 30 DAYS AFTER THE FINAL PERMIT DECISION HAS BEEN ISSUED AND MUST BE ADDRESSED TO ADMINISTRATOR RUCKELSHAUS IN WASHINGTON. THE SPECIFIC PROCEDURES WHICH YOU MUST FOLLOW IN ORDER TO REQUEST REVIEW WILL BE INCLUDED IN U.S. EPA'S FINAL PERMIT DECISION. COPIES OF THE APPEAL PROCEDURES ARE ALSO AVAILABLE AT THE REGISTRATION TABLE. FOR ANYONE PRESENT WHO DOES NOT PLAN TO SUBMIT ORAL OR WRITTEN COMMENTS, BUT WOULD LIKE TO RECEIVE NOTICE OF U.S. EPA'S FINAL PERMIT DECISION AND RESPONSE TO COMMENTS, THERE IS A SIGN-UP SHEET AT THE REGISTRATION TABLE.

U.S. EPA WILL HAVE A TRANSCRIPT MADE OF TONIGHT'S HEARING. IF YOU WOULD LIKE A COPY OF THE TRANSCRIPT, PLEASE SIGN THE SHEET AT THE REGISTRATION TABLE. IF THE TRANSCRIPT IS 50 PAGES OR MORE, THERE WILL BE A COPYING CHARGE ~~OF 20 CENTS A PAGE~~. IF YOU HAVE NOT FILLED OUT A SIGN-IN CARD, WE WOULD APPRECIATE YOUR DOING SO BEFORE YOU LEAVE TONIGHT. THE SIGN-IN CARDS ARE ALSO AT THE REGISTRATION TABLE.

I WOULD LIKE TO STRESS AT THIS POINT THAT THE PURPOSE OF TONIGHT'S HEARING IS TO RECEIVE YOUR COMMENTS INTO THE RECORD. U.S. EPA WILL PRESENT ITS OFFICIAL RESPONSE IN THE RESPONSIVENESS SUMMARY.

MR. SLAUSTAS AND I WILL BE AVAILABLE AFTER THIS HEARING TO PROVIDE YOU WITH ANY INFORMATION AVAILABLE.

ALL PERSONS WISHING TO SPEAK TONIGHT SHOULD REGISTER THEIR INTENT ON THE SIGN-IN CARDS. IF YOU DECIDE YOU WANT TO PRESENT COMMENTS, AND HAVE NOT YET INDICATED YOUR INTENT, PLEASE FILL OUT A CARD AND HAND IT TO THE HEARING ASSISTANT. I WILL CALL THE SPEAKERS IN THE ORDER IN WHICH THE REQUESTS TO SPEAK WERE RECEIVED. AS YOUR NAME IS CALLED, PLEASE STEP TO THE PODIUM TO MY . BEFORE YOU BEGIN TO SPEAK, PLEASE GIVE YOUR NAME AND SPELL YOUR LAST NAME FOR THE COURT REPORTER. YOUR COMMENTS, IN WRITTEN FORM, SHOULD BE GIVEN TO THE COURT REPORTER BEFORE YOU BEGIN YOUR PRESENTATION. PLEASE LIMIT YOUR PRESENTATION TO TEN MINUTES. AT THE END OF YOUR PRESENTATION, MR. SLAUSTAS OR I MAY ASK YOU TO CLARIFY SOME OF YOUR COMMENTS.

IF YOU HAVE A PRESENTATION WHICH IS LONGER THAN TEN MINUTES, PLEASE SUMMARIZE YOUR COMMENTS FOR US. YOU MAY SUBMIT LONGER COMMENTS IN WRITING TONIGHT OR ANYTIME BEFORE THE CLOSE OF THE PUBLIC COMMENT PERIOD ON AUGUST 6, 1984.

AT THE END OF YOUR FIVE MINUTES, IF YOU HAVE NOT FINISHED, I WILL ASK YOU TO CONCLUDE. IF YOU CANNOT FINISH IN THE NEXT MINUTE OR TWO, I WILL HAVE TO ASK YOU TO SIT DOWN SO THAT THE NEXT SPEAKER CAN BEGIN. WE APPRECIATE YOUR COOPERATION, SO THAT EVERYONE WHO WISHES TO SPEAK HAS THE CHANCE TO DO SO.

IF YOU HAVE ANY QUESTIONS ON U.S. EPA'S PROCEDURES, OR ON THE DRAFT PERMIT, MR. SLAUSTAS AND I WILL BE AVAILABLE IMMEDIATELY FOLLOWING THE HEARING.

WE WILL NOW BEGIN TO RECEIVE YOUR COMMENTS. PLEASE REMEMBER TO REPEAT YOUR NAME AND SPELL IT FOR THE REPORTER.

(THANK EACH PERSON)

(READ THE NAMES OF INDIVIDUALS, IF ANY, WHO WERE NOT PRESENT WHEN THEIR NAMES WERE CALLED)

IS THERE ANYONE PRESENT WHO HAS REQUESTED TO SPEAK, BUT WHOSE NAME HAS NOT BEEN CALLED? IS THERE ANYONE WHO WOULD LIKE TO MAKE A COMMENT?

THANK YOU VERY MUCH FOR YOUR PARTICIPATION IN TONIGHT'S HEARING.  
THE HEARING IS ADJOURNED.

I RECOMMEND THAT YOU STATE FOR THE RECORD ANY COMMENTS OR QUESTIONS WHICH YOU MAY HAVE. I WOULD LIKE TO STRESS AT THIS POINT THAT THE PURPOSE OF TONIGHT'S HEARING IS TO COLLECT YOUR COMMENTS AND QUESTIONS. THE AGENCY'S OFFICIAL RESPONSE OR ANSWER TO YOUR QUESTIONS WILL NOT BE PRESENTED THIS EVENING BUT THE AGENCY WILL PRESENT ITS OFFICIAL RESPONSE IN THE RESPONSIVENESS SUMMARY. I WOULD LIKE TO REPEAT, THAT THE AGENCY WILL SEND TO YOU, FREE OF CHARGE, A COPY OF ITS RESPONSIVENESS SUMMARY IF YOU SIGN YOUR NAME AND ADDRESS ON THE SHEET ENTITLED "REQUEST FOR RESPONSIVENESS SUMMARY".

MR. ~~SEBASTIAN~~ AND I WILL BE AVAILABLE DURING BREAKS AND AFTER I ADJOURN THIS HEARING. WE WILL AT THAT TIME ATTEMPT TO PROVIDE YOU WITH ANY INFORMATION WHICH WE CAN.

IT IS NOW \_\_\_\_\_ P.M. WE WILL TAKE A BREAK. THE HEARING WILL  
REMAIN OPEN UNTIL 7:50 P.M. IF ANYONE ELSE ARRIVES BY THAT TIME,  
THEY WILL HAVE AN OPPORTUNITY TO MAKE A COMMENT FOR THE RECORD.  
WE WILL NOW RECESS.

IT IS NOW \_\_\_\_\_ P.M. THE HEARING WILL RECONVENE. IS THERE ANYONE  
WHO WOULD LIKE TO MAKE A COMMENT?

THANK YOU VERY MUCH FOR YOUR PARTICIPATION IN TONIGHT'S HEARING.  
THE HEARING IS ADJOURNED.

## FACT SHEET

Columbus Coated Fabrics  
OHD 004-294-351

### I. INTRODUCTION

On May 19, 1980, (45 FR 33066) pursuant to the requirements of Section 3001 through 3006 of the Resource Conservation and Recovery Act, as amended, (RCRA or the Act), the United States Environmental Protection Agency (U.S. EPA) promulgated regulations to protect human health and the environment from the improper management of hazardous waste. Section 3005 of the Act and Code of Federal Regulations, 40 CFR Parts 270 and 124, established a permit system governing the storage of hazardous wastes. Final regulations for storage facilities appeared in the Federal Register of January 12, 1981. These regulations enable U.S. EPA to issue permits for hazardous waste storage facilities in the State of Ohio. A facility which receives a RCRA permit shall comply with U.S. EPA regulations pertaining to design, operation, performance, accident prevention and preparedness, closure and financial responsibility. This Fact Sheet briefly describes the derivation of conditions of the draft permit in support of U.S. EPA's proposal to issue a RCRA permit to Columbus Coated Fabrics, 1280 North Grant Street, Columbus, Ohio to store hazardous wastes.

On December 9, 1983, Columbus Coated Fabrics submitted its revised and complete application for a RCRA permit in accordance with 40 CFR Section 270.14. To receive a RCRA permit, a facility shall demonstrate compliance with applicable technical standards in 40 CFR Part 264 published on May 19, 1980, (45 FR 33221) January 12, 1981, (46 FR 2848), and January 23, 1981, (46 FR 7676), as well as financial requirements published on April 7, 1982, (47 FR 15047) and April 16, 1982, (47 FR 16554). After reviewing Columbus Coated Fabric's application, U.S. EPA has tentatively determined that the above standards and requirements have been met. The draft permit condition includes all of these requirements. The preambles to the May 19, 1980; January 12, 1981; January 23, 1981; June 24, 1982, regulations explain the rationale for these requirements.

Also incorporated in the draft permit conditions are requirements for the facility to comply with the terms of its proposed Waste Analysis Plan, Preparedness and Prevention Plan, Personnel Training Plan, and Closure Plan. These items have been determined by U.S. EPA as necessary to comply with the technical standards governing the storage of hazardous waste.

041-28

## II. FACILITY DESCRIPTION

Columbus Coated Fabrics is located in Columbus, Ohio at 1280 North Grant Street. It is primarily a manufacturer of decorative vinyl products. Hazardous wastes are generated from the manufacturing process as well as from a solvent recycling operation. The hazardous wastes generated at this location are stored in containers prior to shipment off-site for treatment or disposal.

The hazardous wastes generated and stored temporarily at Columbus Coated Fabrics include spent halogenated solvents, spent non-halogenated solvents, residue or still bottoms from recovery of spent non-halogenated solvents, and electroplating sludge.

The hazardous waste storage facility at Columbus Coated Fabrics has a maximum capacity of 24,750 gallons. The drums containing hazardous wastes are stored on impervious concrete and the storage facility is designed to contain any inadvertent leak or spill.

## III. SUMMARY OF BASIS FOR PERMIT CONDITIONS

This section of the fact sheet provides a brief summary of the permit conditions in the draft permit. All citations of the regulations refer to the regulation as codified in Title 40 of the Code of Federal Regulations (40 CFR).

### A. Standard Permit Conditions

Standard permit conditions I.A to I.G are regulatory requirements of 40 CFR Part 270. These conditions are of a general nature and are applicable to all hazardous waste management facilities regulated pursuant to a U.S. EPA RCRA permit.

### B. General Facility Conditions

General facility conditions II.A. to II.Q. are regulatory requirements of 40 CFR Part 264. These conditions are of a general nature and are applicable to all hazardous waste management facilities regulated pursuant to a U.S. EPA RCRA permit.

### C. Storage In Containers

Conditions III.A. to III.G. are regulatory requirements of 40 CFR Part 264. These conditions are applicable to all hazardous waste management facility that store hazardous waste in containers pursuant to a U.S. EPA permit.

The Columbus Dispatch/Friday, Nov. 2, 1984

### Waste permit protested

A federal EPA hazardous waste storage permit will not give Columbus residents adequate protection, Columbus Health Department officials said today.

Assistant Health Commissioner Michael J. Pompili said the city will file an appeal with the U.S. EPA, seeking stricter controls over the storage of hazardous waste at the Columbus Coated Fabrics Co., 1280 N. Grant Ave. The company is a subsidiary of Borden Inc.

The Environmental Protection Agency has notified health officials that their request for stricter standards was rejected. The department has until Sunday to appeal.

Pompili said the proposed federal permit has no arrangements to familiarize local emergency teams with the plant.

Pompili said city health officials have been negotiating to get Borden to voluntarily accept stiffer standards.

COLUMBUS CALL & POST  
COLUMBUS, O.  
W (BLACS) - CIRC. 12,500

SEP-27-84

## City health department monitors chemical plants

By JOHN E. JONES JR.

There are 308 hazardous waste locations in Franklin County, some as small as gas stations that handle spent solvent, according to Michael J. Pompili, assistant health commissioner for environmental health, city of Columbus.

Pompili reports that there are 41 hazardous waste generators in Franklin County that are exempt from licensing if the waste is stored less than 90 days.

Hazardous waste is defined as such if it is listed in the Resource Conservation and Recovery Act (RCRA) of 1976 regulations or exhibits at least

one of four of the following characteristics: ignitability, corrosiveness, reactivity (for explosiveness) or toxicity.

The residents of the Marion-Franklin area are concerned about three chemical plants in the neighborhood that store hazardous waste. The plants are: Georgia Pacific, 1975 Wetkine Rd.; McKesson Chemical, 1785 E. Moler Rd.; and DeSoto, Inc., 2121 New World Dr.

Recent chemical releases from one or more of the plants have caused neighborhood concern and brought the Columbus Health Dept., the residents, and representatives of the chemical plants at loggerheads. "It is important to note," Pompili told the CALL & POST,

that the companies we have met with and developed agreements with are under no obligation to meet with us."

He said that they are controlled by Ohio Environmental Protection Agency and the U.S. Environmental Protection Agency (EPA).

Franklin County Commissioner Fran Ryan said, "As a county commissioner, I support stronger federal and state EPA laws. I have contacted the Ohio EPA about the situation."

Pompili said that the city health department is somewhat caught between the neighborhood residents, state and federal EPA, and the chemical plants.

A memorandum of understanding was developed recently between the Georgia Pacific Co. and the Columbus Health Dept. that has some neighborhood residents concerned about the lack of citizen input in the development of the memorandum.

"Health department representatives have attended two or three meetings in the neighborhood," Pompili noted. "We have heard their concerns and definitely had them in mind when the memorandum was developed."

He said he did not understand their complaint.

The memorandum included some of the following points:

--Ground water will be monitored through April 1985.

--The health department will be informed of all communication between Ohio EPA and Georgia Pacific that is directed toward preventing future incidents.

--Quarterly inspections will be conducted by the Fire Dept. to examine condition, storage, labeling, and separation of containers. Health department and Georgia Pacific will receive copies of inspection.

--Results of hazardous waste sampling will be sent to the division of sewers and drains.

--No incompatible wastes will be stored in proximity to each other.

--Georgia Pacific will conduct a thorough engineering review and the city will be informed of its outcome.

The city health department has also developed an agreement with DeSoto, Inc. Some of the points in that memorandum include:

--A chemical analysis of DeSoto, Inc.'s hazardous waste will be transmitted to the

sewers and drains division once per calendar year.

--DeSoto, agrees to submit to an inspection by either the U.S. EPA, the Ohio EPA or the Columbus Fire Dept. on a quarterly basis.

--DeSoto agrees to comply with all applicable regulations regarding the storage of incompatible waste at the facilities.

Following are the major points of agreement from the McKesson Chemical memorandum:

--McKesson trailers shall use the Moler Rd. between Fairwood and Progress Aves.

--Inspections will be quarterly by the Health Dept., Columbus Fire Dept. or the Ohio EPA.

--In the event of an incident involving hazardous waste, McKesson, the health department will conduct a health assessment of the incident.

--McKesson will maintain or install low pressure anti-backflow devices in the water supply to the facility.

A final draft has been prepared of an evacuation plan, according to Gary Brown, whose chief responsibility in the health department is with hazardous waste.

He said that the planning committee is reviewing the final draft and is expected to reconvene within two weeks to accept the report.

The evacuation plan is being developed by the Columbus Health Dept., Fire Dept., Police Dept., Franklin County Disaster Services Agency, and the American Red Cross.

Pompili said he believes that stronger and clearer EPA guidelines should be developed on both the state and federal levels.

# Tight controls at toxic waste plant urged by official

By Janet A. Pearl

*Dispatch Staff Reporter*

An official of the Columbus Health Department asked Wednesday for tight federal controls on a hazardous waste storage facility at 1280 N. Grant Ave.

Michael J. Pompili, the city's assistant health commissioner, was the lone speaker Wednesday at a public hearing about a proposed permit to allow Columbus Coated Fabrics Co. to continue operating.

THE U.S. Environmental Protection Agency held the hearing to gauge public reaction to its intent to issue a Resource Conservation and Recovery Act permit to the company, a subsidiary of Borden Inc. Fewer than 10 people gathered in the auditorium of the main branch of the Public Library of Columbus and Franklin County for the hearing.

Pompili read a statement highlighting what he called plant deficiencies. He also called for an extended deadline for the public to respond in writing about the proposed permit.

"We want an acknowledgment that evacuation might be necessary," Pompili said.

He called for quarterly inspections of the site, and said the company should make a presentation to familiarize public safety officials and hospitals with the plant layout and types

of illnesses and injuries that could occur from handling the hazardous wastes.

Pompili also said the permit application did not include written description of the training to be given employees handling a hazardous waste emergency.

TOM HEATON, environmental specialist at Borden's corporate office, said after the meeting that Columbus Coated Fabricst, which produces decorative vinyl wall coverings, expected to receive a written request from Pompili today and will probably schedule a meeting with the health department.

EPA spokesman Charles Slaustas said, "Columbus Coated Fabrics does not have to reach an agreement with the health department for a permit to be issued."

The deadline to receive written responses on the permit was extended from Aug. 1 until Aug. 27. Comments should be sent to Michael Ohm, U.S. EPA Region V, Waste Management Branch, 230 S. Dearborn St., Chicago, Ill. 60604.

Slaustas said the plant has a maximum storage capacity of 24,750 gallons of hazardous waste, and the permit would require the plant to follow more stringent regulations.

The decision on the permit will be made about Sept. 15, he said.

Re: Columbus Coated Fabrics  
Columbus, OH - OHD 004-294-341

Dear Mr. Grimes:

Borden Inc. appreciates your forwarding a copy of USEPA Region V's response to the City of Columbus' Health Department's Petition for Review of our Columbus Coated Fabrics RCRA permit.

Borden cannot let the statement in your letter (p. 2 first paragraph, last sentence) that "Columbus Coated Fabrics apparently did not follow through on its statements that it had supplied the various local entities with copies of its contingency plan"...pass without comment.

Attachment 1 pages 83b-83i are copies of our transmittal letters to the various agencies. Note that the documents transmitted are specifically identified as "Spill Prevention Control and Countermeasure Plan" and "Emergency Action Plan" and were supplied to comply with RCRA regulations. There were seven (7) addressee hospitals and emergency agencies so supplied.

Edith Ardiente's inquiry letters, Attachment's 9, 10 and 11, evidently went to only three of our seven addressees and asked about a "Contingency Plan". Also evidently, only two replies were received (Attachments 12 and 13). In the latter, Chief Woltz says he never received a "Contingency Plan"...but did receive, on June 7, 1982 a "Spill Prevention Control and Countermeasures Plan" and "Emergency Action Plan".

Columbus Fire Department, therefore, did receive precisely as we represented to USEPA, what we expressly stated we had sent to comply with RCRA. Chief Woltz, prior to our meeting with him on March 21, 1985, had never notified

Roger Grimes, USEPA  
Page 2  
April 11, 1985

Columbus Coated Fabrics of "his" interpretation of 40 CFR Part 264.37 and 264.52. Columbus Coated Fabrics had every reason to believe that following our June 7, 1982 notice, Columbus Fire Department would have incorporated into its, then quarterly, inspections of our plant a review of hazardous waste facilities.

In our meeting of March 21, 1985, Chief Woltz agreed to arrange familiarization tours for his personnel with our Brigade Fire Chief. Hopefully this issue has now been resolved.

We would note in passing that while the 1984 alarms recorded by Chief Woltz are accurate, the Columbus Fire Department is automatically summoned when a fire of significant size or duration occurs within our facility. Columbus Fire Department has on only one occasion assisted our Fire Brigade in extinguishing a fire at Columbus Coated Fabrics on (5/2/84). In all other cases our Fire Brigade has extinguished the fire prior to the arrival of Columbus Fire Department.

As to the Grant Hospital response (Attachment 12), our own investigation revealed that Mr. Ilg received a call in January 1985 from a Grant Hospital employee in the Building and Grounds department regarding his receipt of our Ms. Ardiente's letter and requesting instructions. He was told to forward it to personnel at the Hospital responsible for such matters so they could search their files and report. In March 1985, Mr. Ilg checked back with that employee who advised that "a lot of things were misplaced when Grant Hospital moved its Administration offices in 1983". Mr. Ilg also talked to Brian Saul, author of Attachment 12 who advised that much had changed at Grant since 1982 and the transmittal could have been received - it simply was not in the Safety Directors or the Emergency Room File. Mr. Saul is Grant's third Safety Director in the past three years.

To remedy any such misplacement of our document, we sent - this time by certified mail - revised copies of our plans to the same seven (7) addressees in early March 1985. We are also assembling Material Safety Data Sheets on all raw materials which subsequently may appear in our hazardous waste for transmittal to all addressees.

Borden has no objection to review of our RCRA permit or of our Plans submitted pursuant to the RCRA regulations. We do, however, want to set the record straight that we did not

Roger Grimes, USEPA  
Page 3  
April 11, 1985

"apparently fail to follow through" on submittal of the Plans to the various agencies as alleged in your letter. If the evidence provided in your response is supposed to be the basis for granting the Review Petition, it is indeed an insubstantial basis. However, if the USEPA is suggesting that Borden's Columbus Coated Fabrics has some duty other than transmittal of our Plan's, then that may fairly be an issue for review. I'm sure that not only Borden, but many other Part B Permit applicants, would be interested in finding out what 40 CFR §264.37 really means.

I am copying Ms. Wolfson with this letter in the hope that Borden's Columbus Coated Fabrics may also have input into shaping the issues to be inquired into in such a review.

Very truly yours,

  
W. Bailey Barton

### Petition For Review

The City of Columbus, the Columbus Health Department and the Department of Public Safety petition the Administration of the U.S. EPA for a review of the Resource Conservation Recovery Act (RCRA) hazardous waste management permit decision of U.S. EPA Region 5 of the above-captioned applicant. The petition for review is filed pursuant to 40 CFR 124.19.

On July 25, 1984, at the public hearing relating to the above-captioned application, Mr. Michael Pompili of the Columbus Health Department raised certain issues. In particular, the Health Department pointed out that contrary to the statements made in the application, no formal arrangement had been made by Columbus Coated Fabrics to familiarize police, fire and emergency response teams with the layout of the facility, properties of hazardous waste handled at the facility and associated hazardous places where facility personnel would normally be working, entrances to and roads within the facility nor possible evacuation routes.

Region 5 in its response to this issue stated:

In order to familiarize the local fire, police, and hospital representatives with the properties of the hazardous waste handled by the facility, as well as fire and emergency evacuation routes at the facility, a copy of the contingency plan was submitted to each

of these organizations by Columbus Coated Fabrics. In addition, any updates of the contingency plan will be forwarded to these organizations. Also, recent conversations between this Agency and representatives of Columbus Coated Fabrics indicated that members of the Columbus Fire Department visit the facility every six months for familiarization and/or inspection purposes. Since the provisions of 40 CFR 264.37 do not require that agreements be signed with the police and fire departments when a single police and single fire department might respond to an emergency, the regulatory requirements have been satisfied.

(Emphasis added.)

CCF forwarded to the Fire Chief over three years ago a copy of their contingency plan. No updates have been issued to safety agencies. Neither have there been any contacts for familiarization with appropriate City safety forces. There have been no meetings with management and fire personnel nor any on-site training exercises as recommended in the "Permit Applicant's Guide" (SW-968). While some Fire personnel may inspect the facility periodically for fire hazards as is typical with any commercial establishment, this inspection does not meet the intent of familiarization and/or inspection of the EPA regulations.

The Department of Public Safety, Division of Fire feels that the degree of familiarization inspection and knowledge of the hazardous waste operation at CCF is inadequate.

The petitioners feel that the Findings of Fact of Mr. Constantelos, Director, Waste Management Division, was clearly erroneous because it was based upon incorrect information supplied by the applicant and was an abuse of discretion because his decision was based upon verbal statements made by the applicant outside the administrative record and upon an ex parte basis.

The City of Columbus, the Columbus Health Department and the Department of Public Safety respectfully request that the Administrator of the U.S EPA review this permit application and the final decision to issue a RCRA hazardous waste management facility permit to Columbus Coated Fabrics by Mr. Constantelos.

Yours truly,

Eileen A. Groves  
Assistant City Attorney
